

Optical Illusions

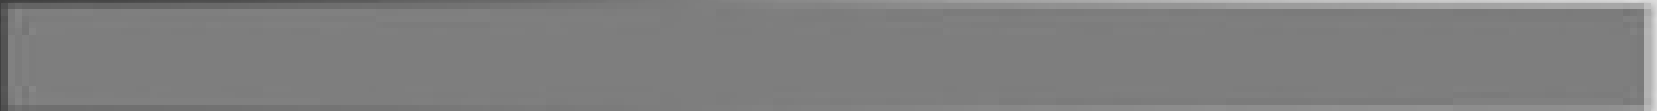

**Which is
darker A
or B?**

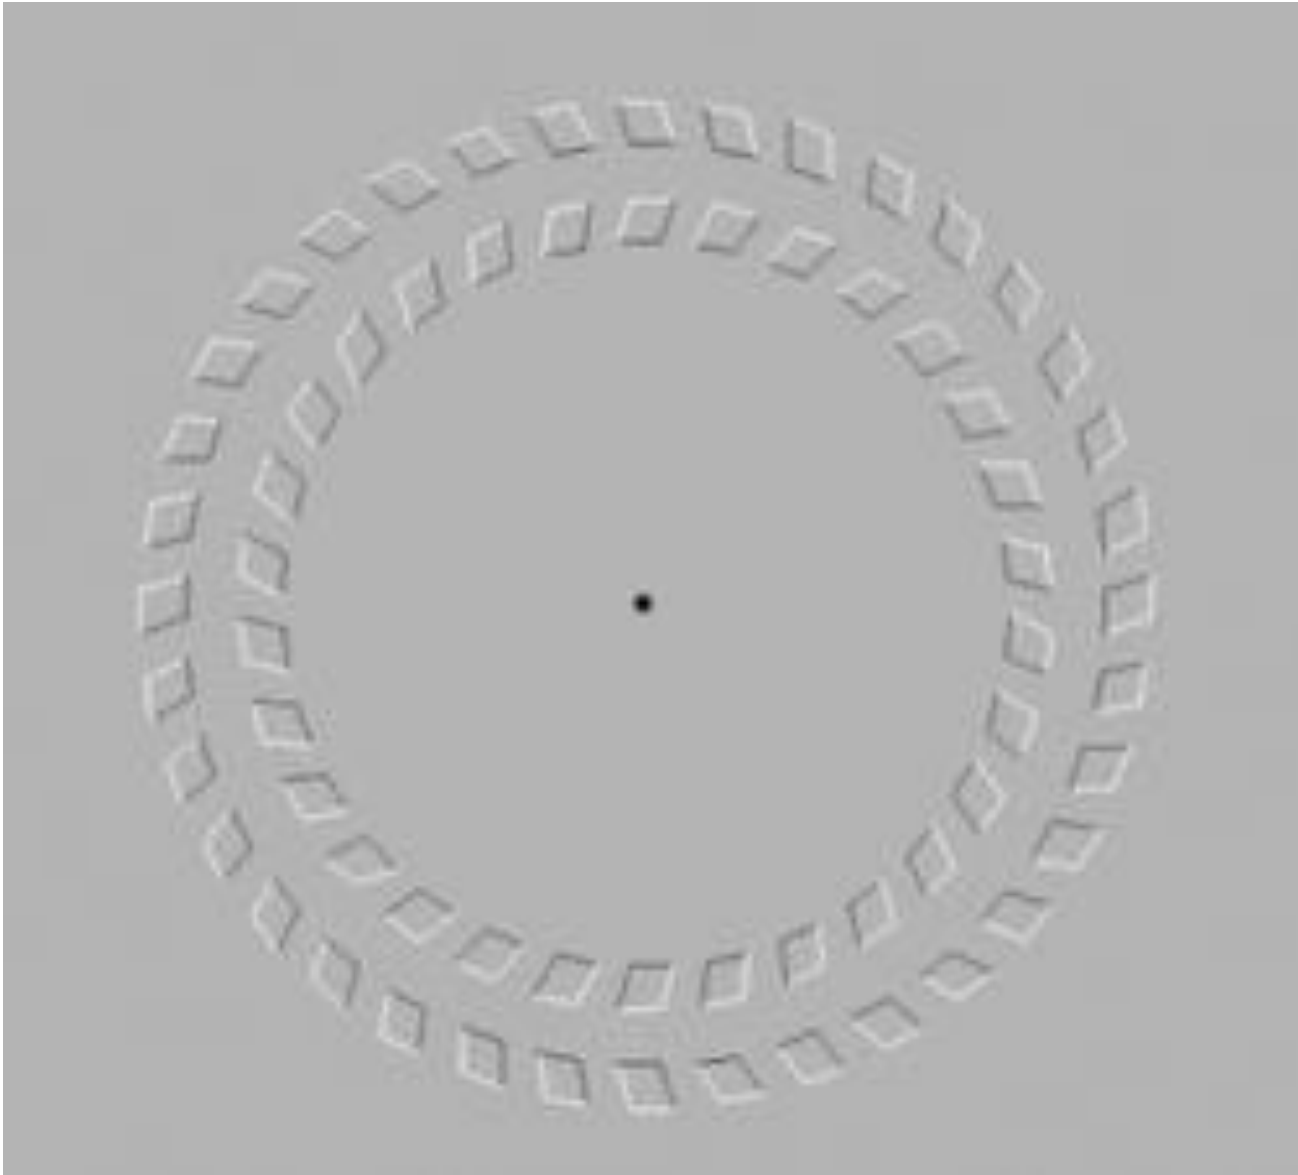

Black spots appear at the intersections.

**The grey centre bar is the same shade everywhere! -
Watch**

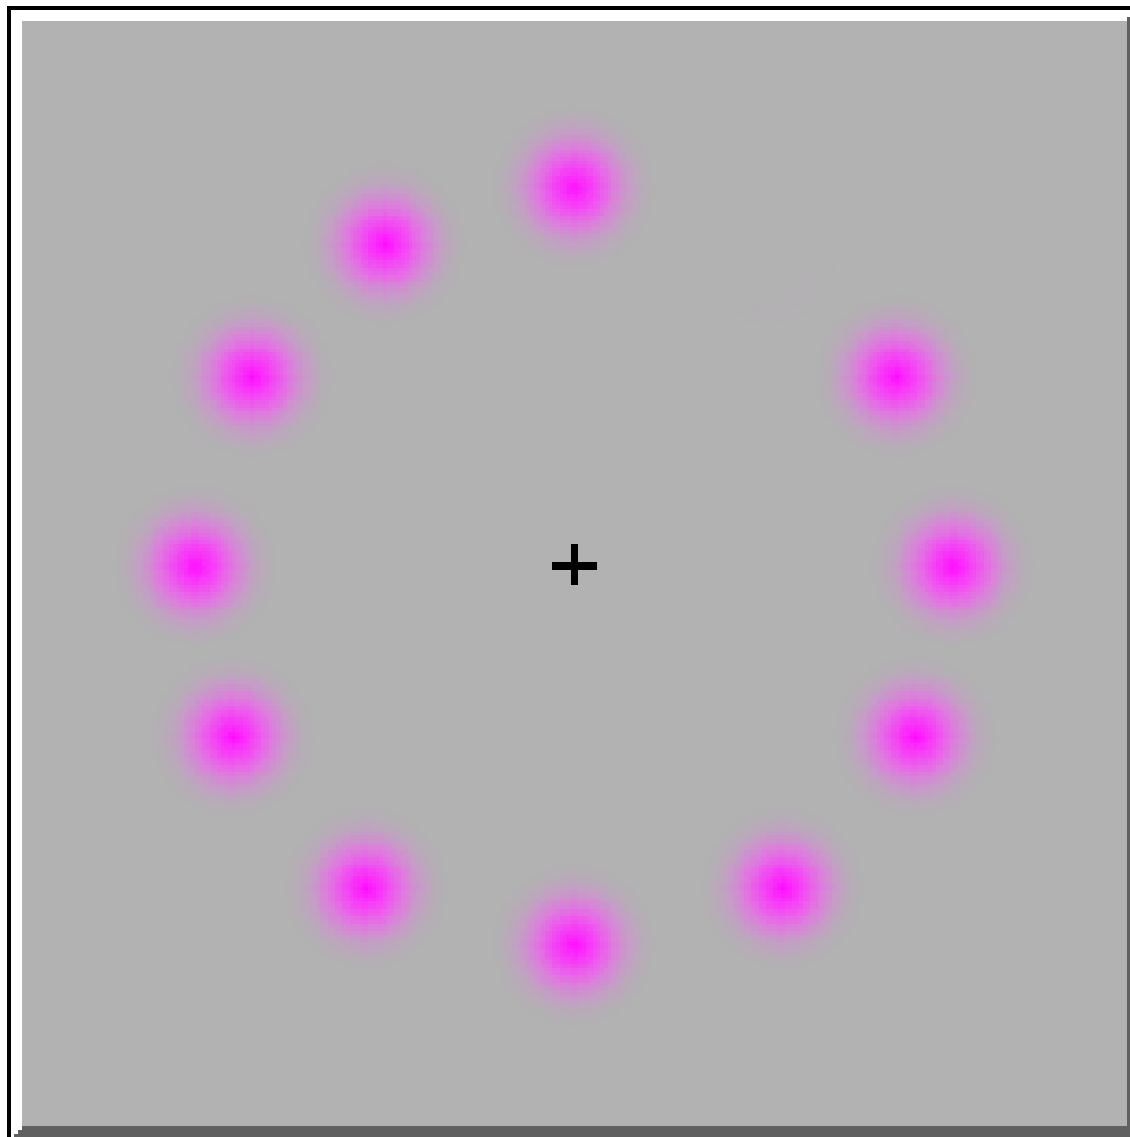

Move your head forwards and backwards while looking at the black dot. What appears to happen?

There is a pipe in the stream of water that holds up the tap and supplies the water!

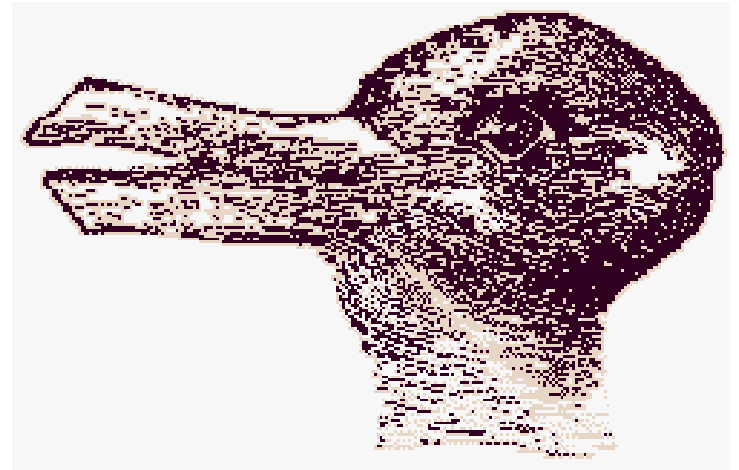

Focus on the cross in the middle – what happens?

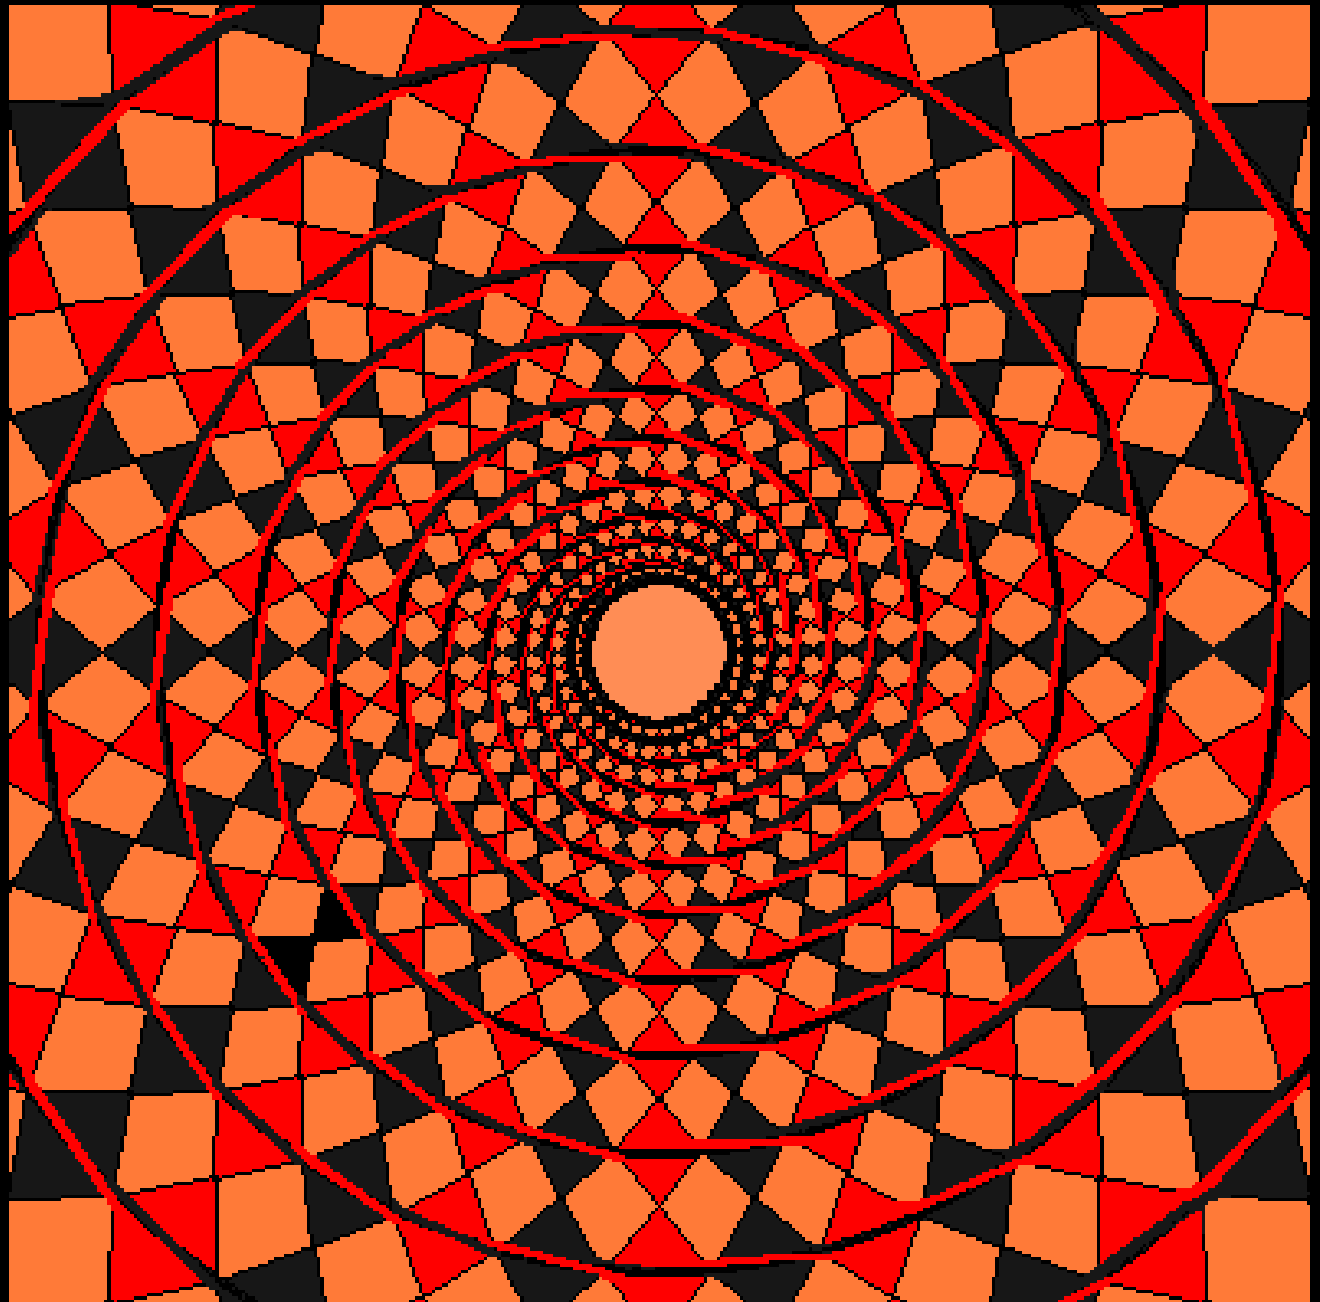

Rabbit or duck?

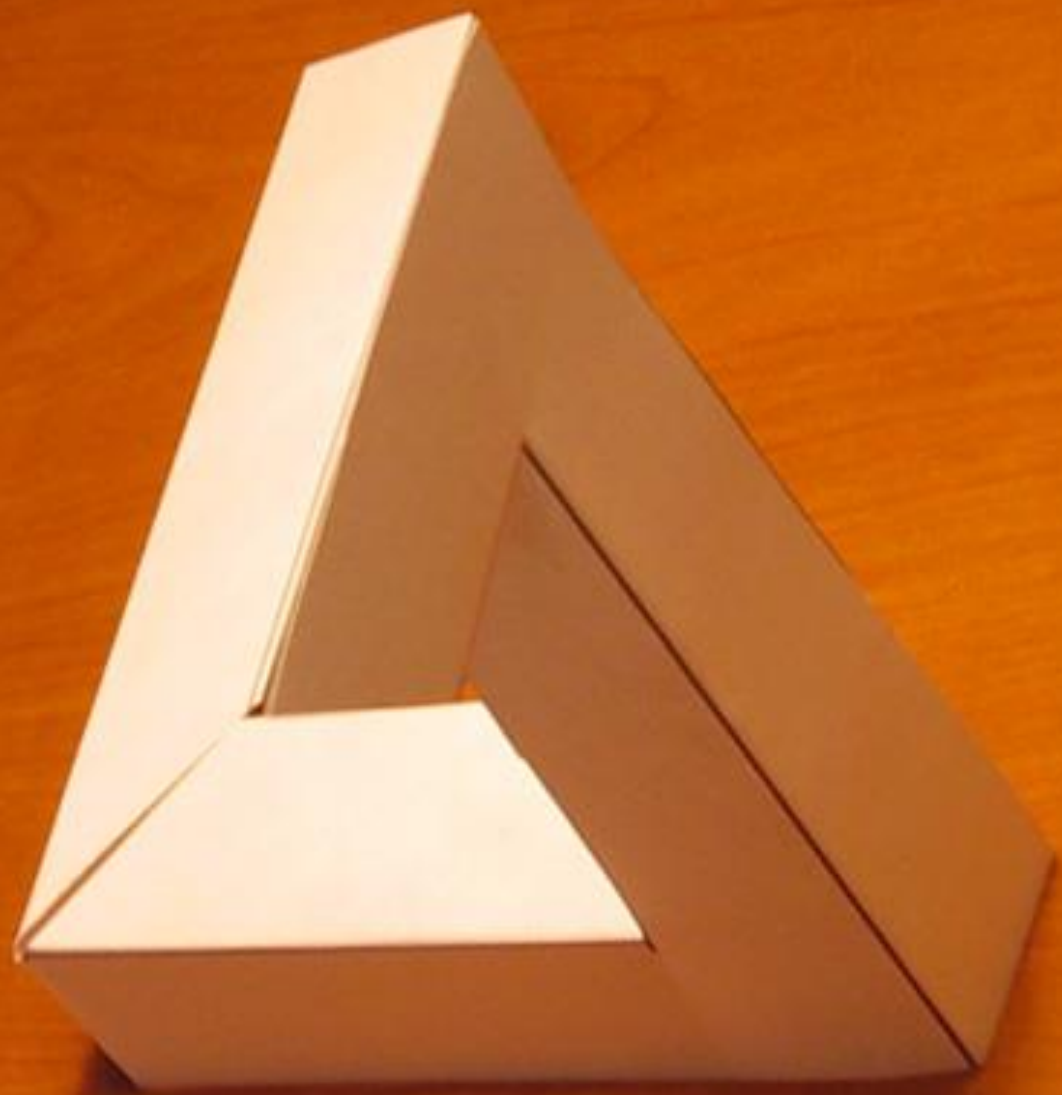

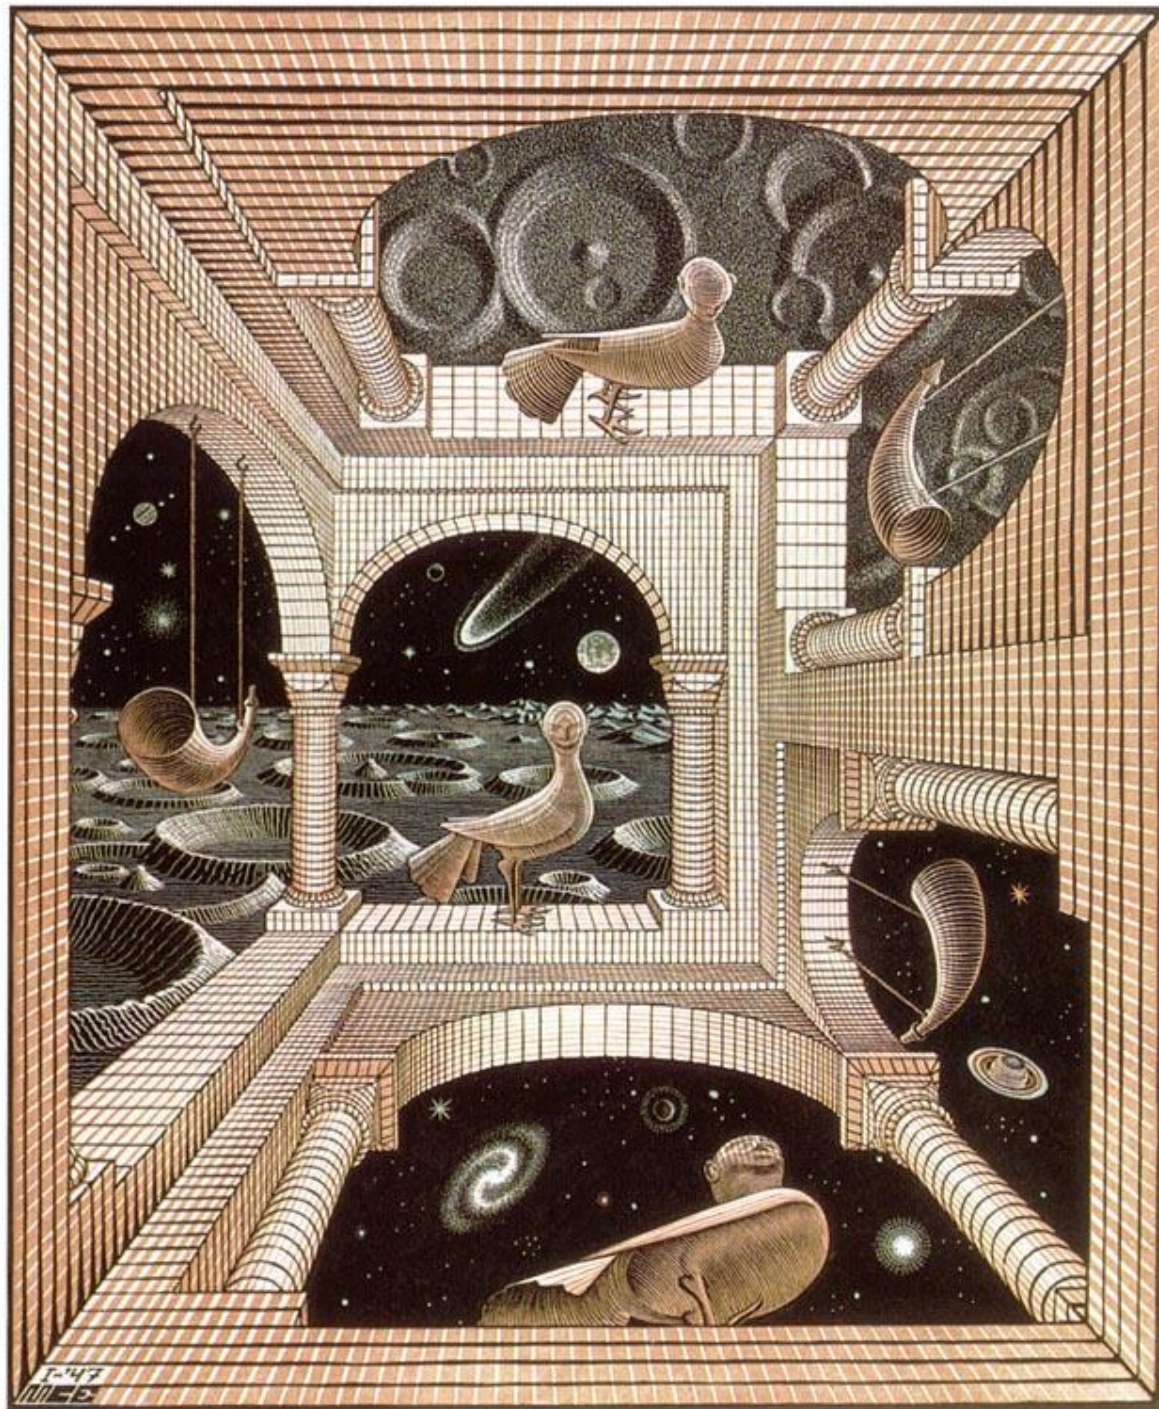

Rabbit or duck?

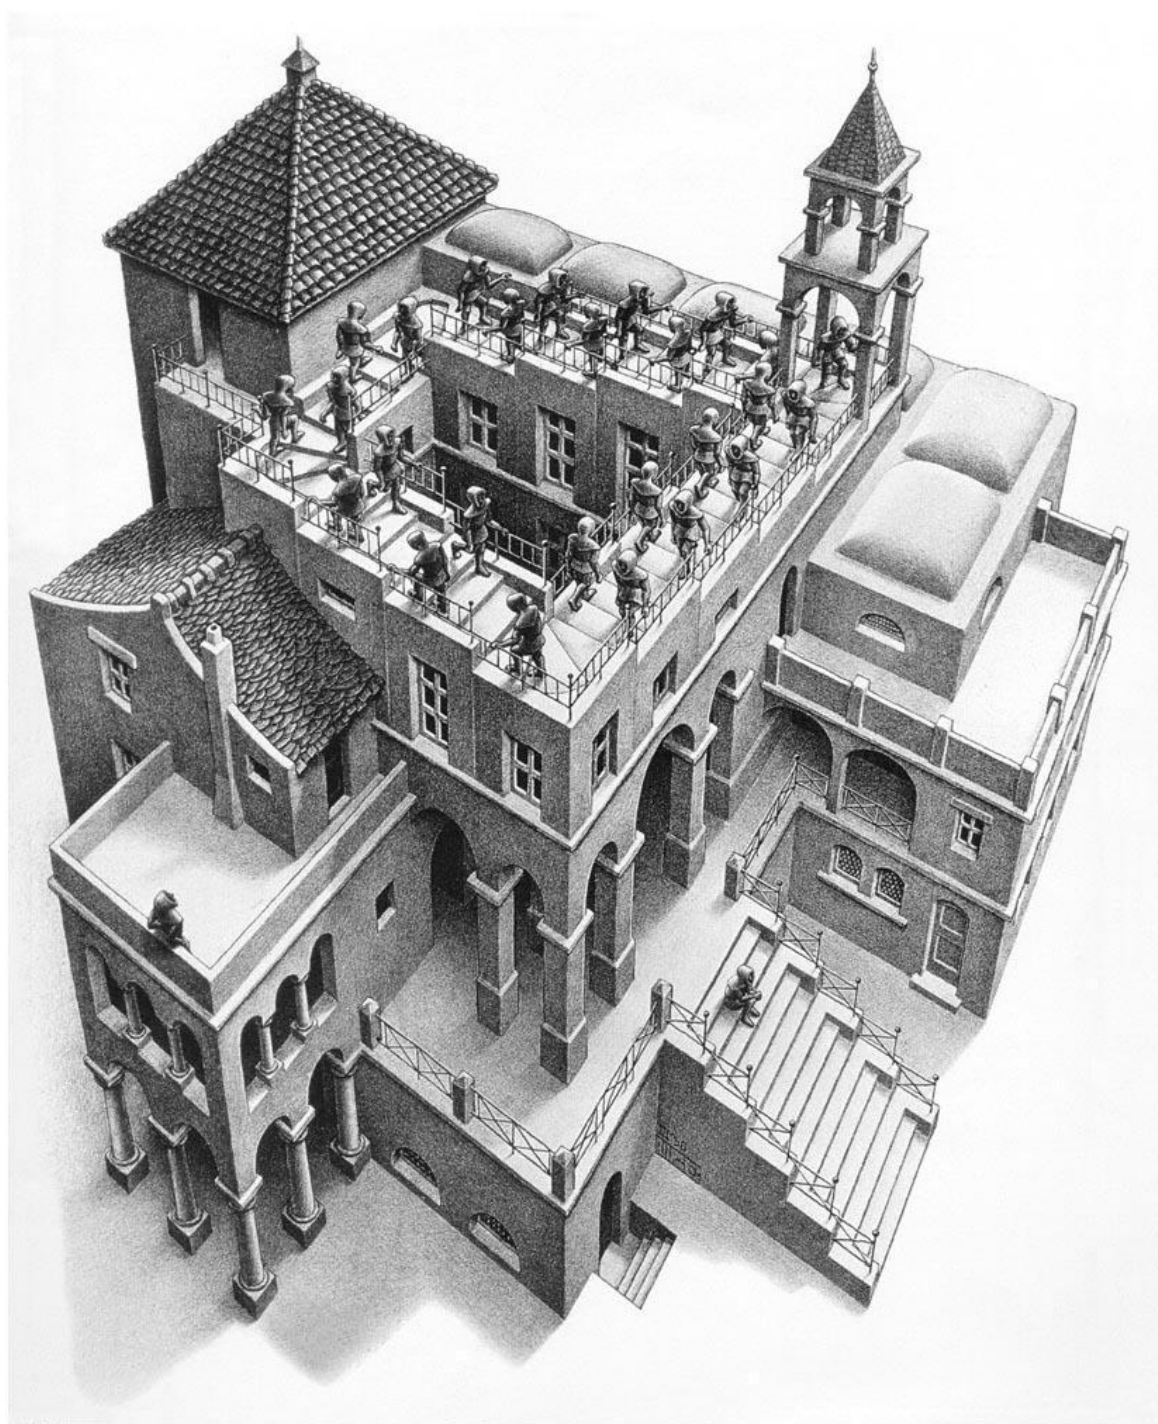

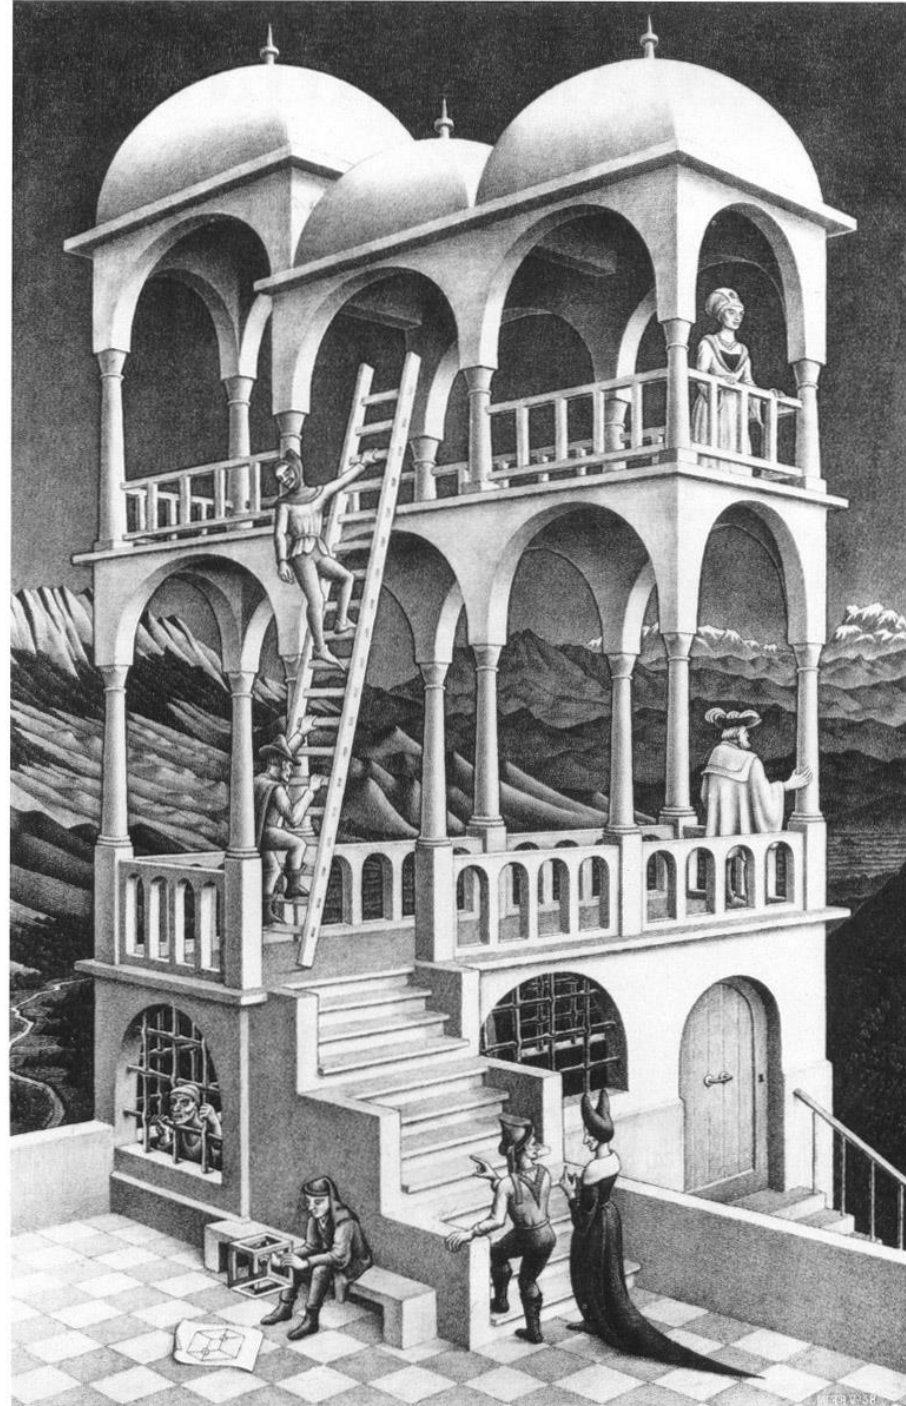

**Circle or
spiral?**

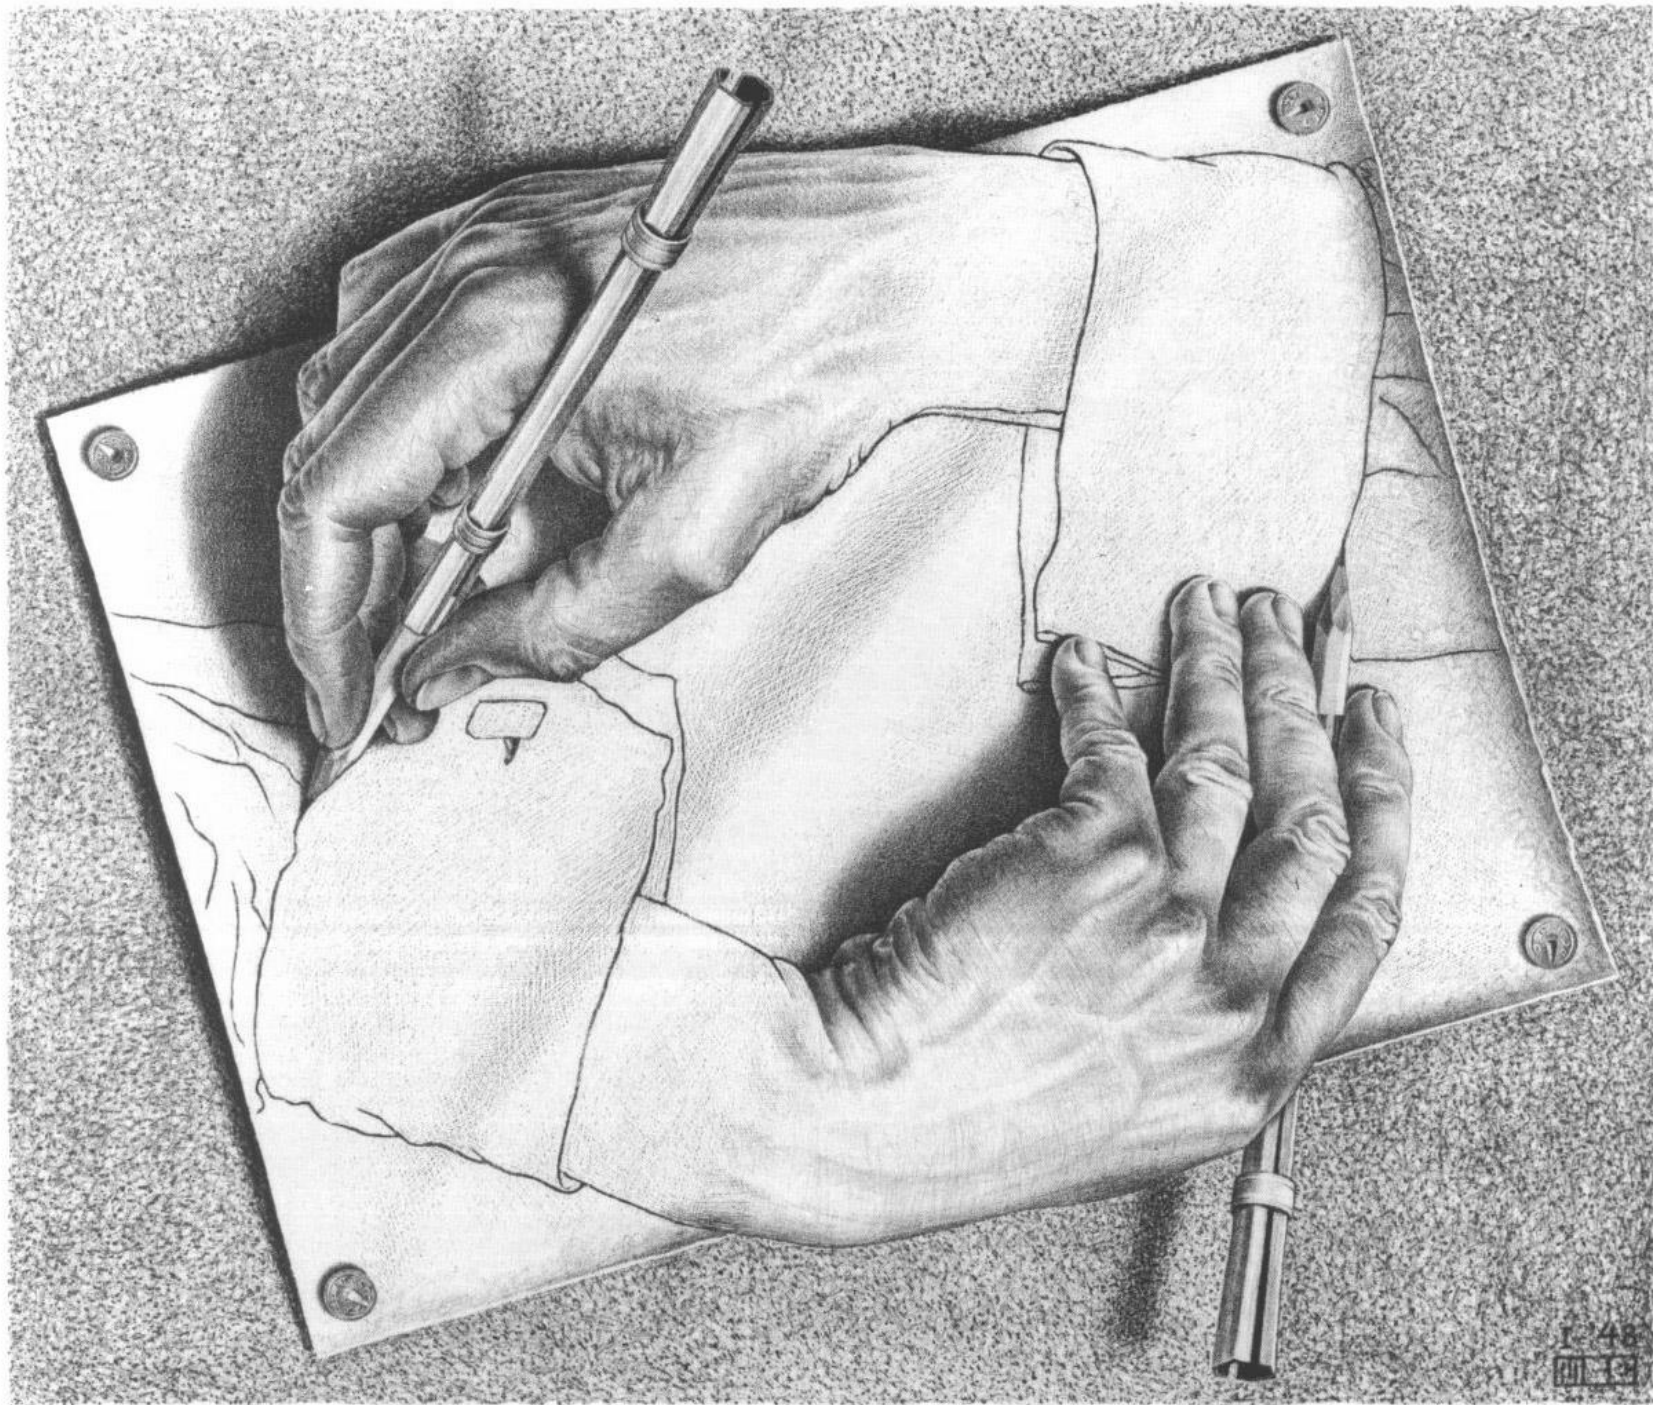

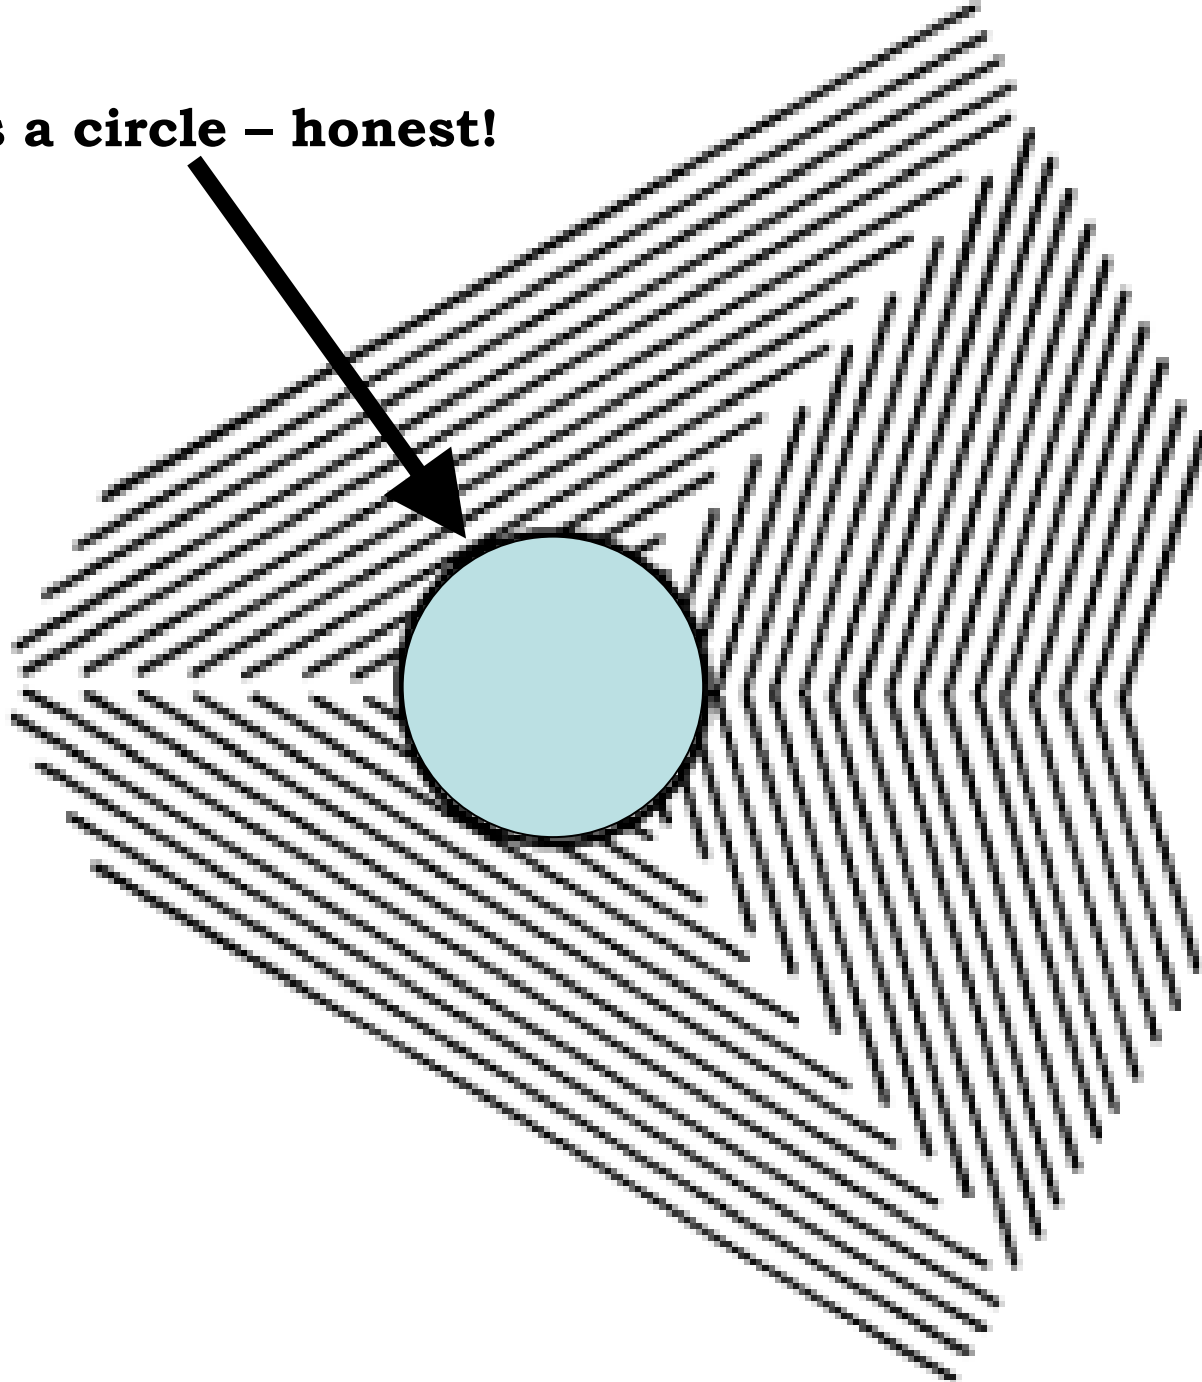

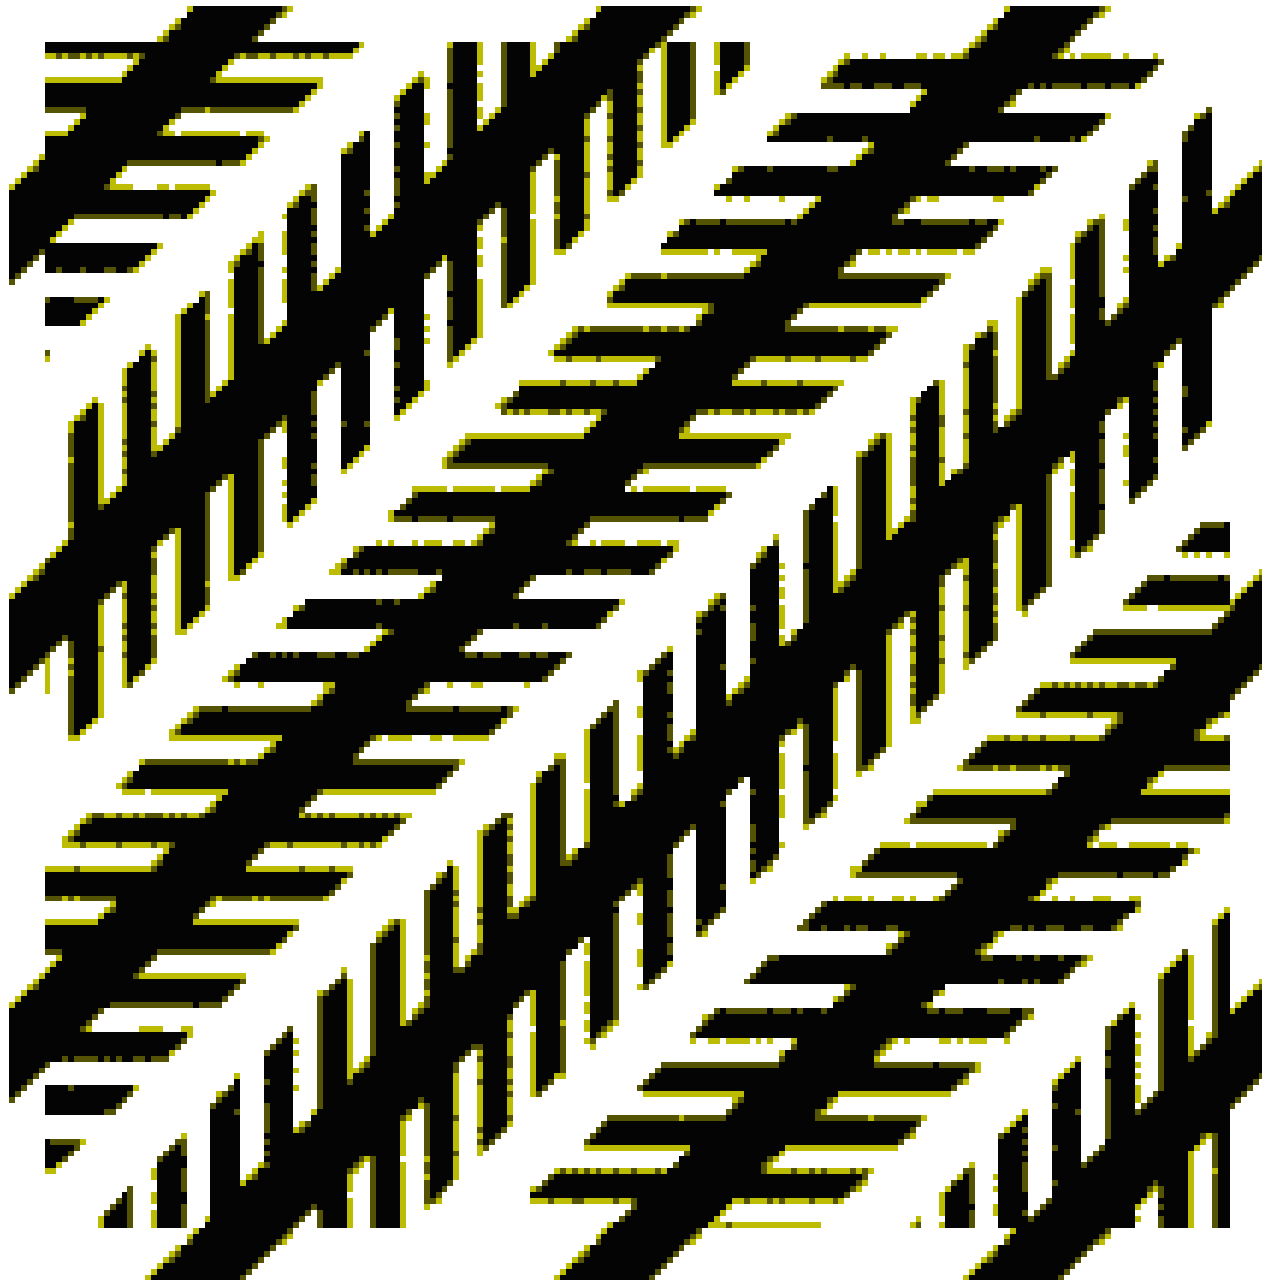

This is a circle – honest!

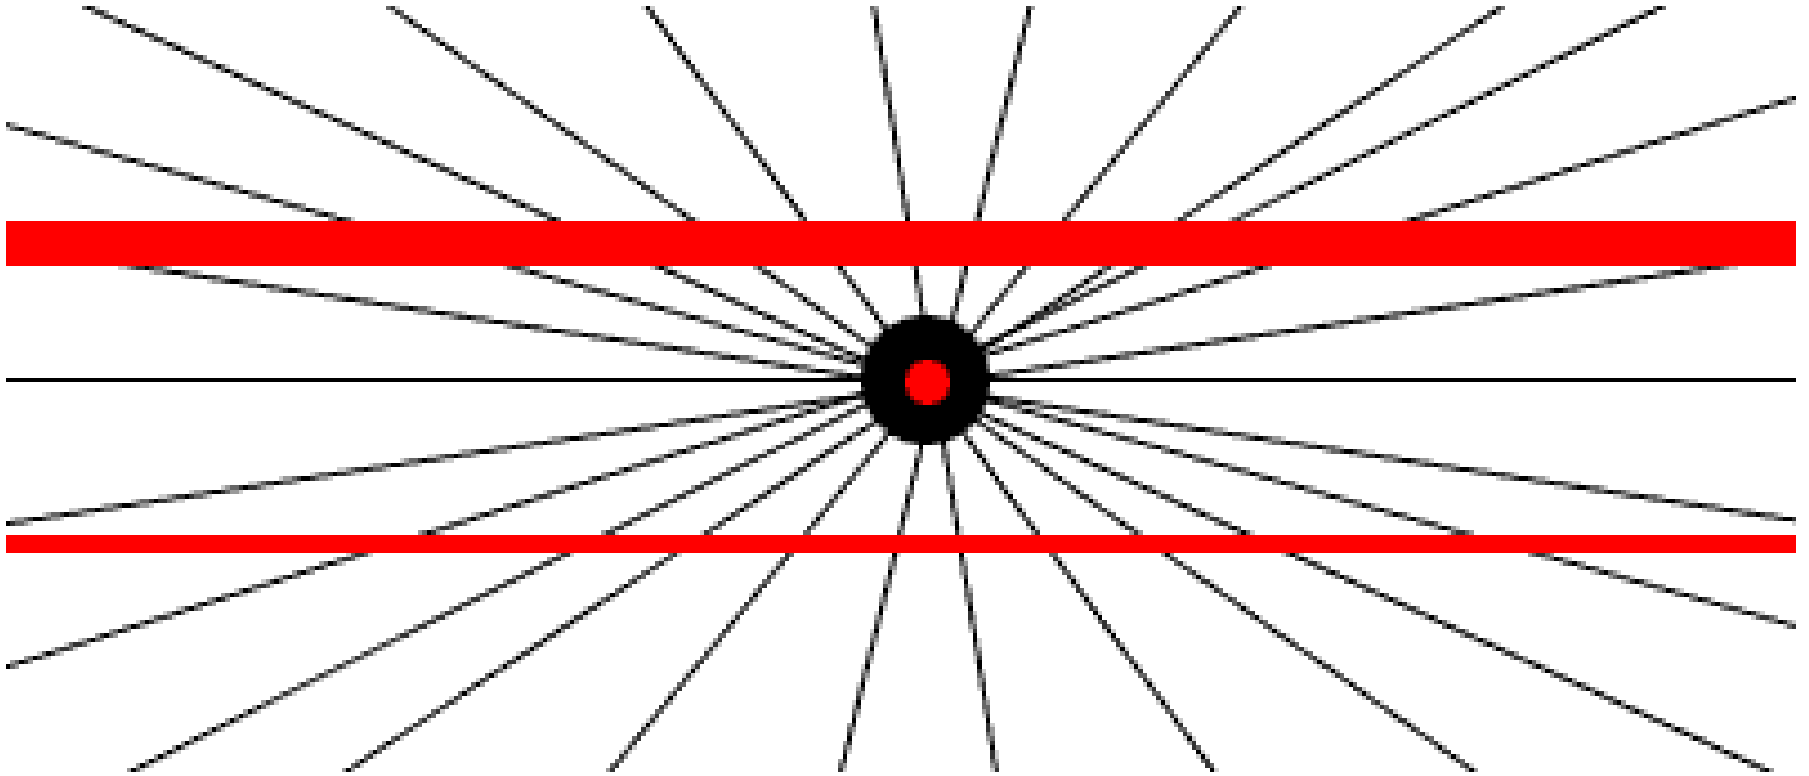

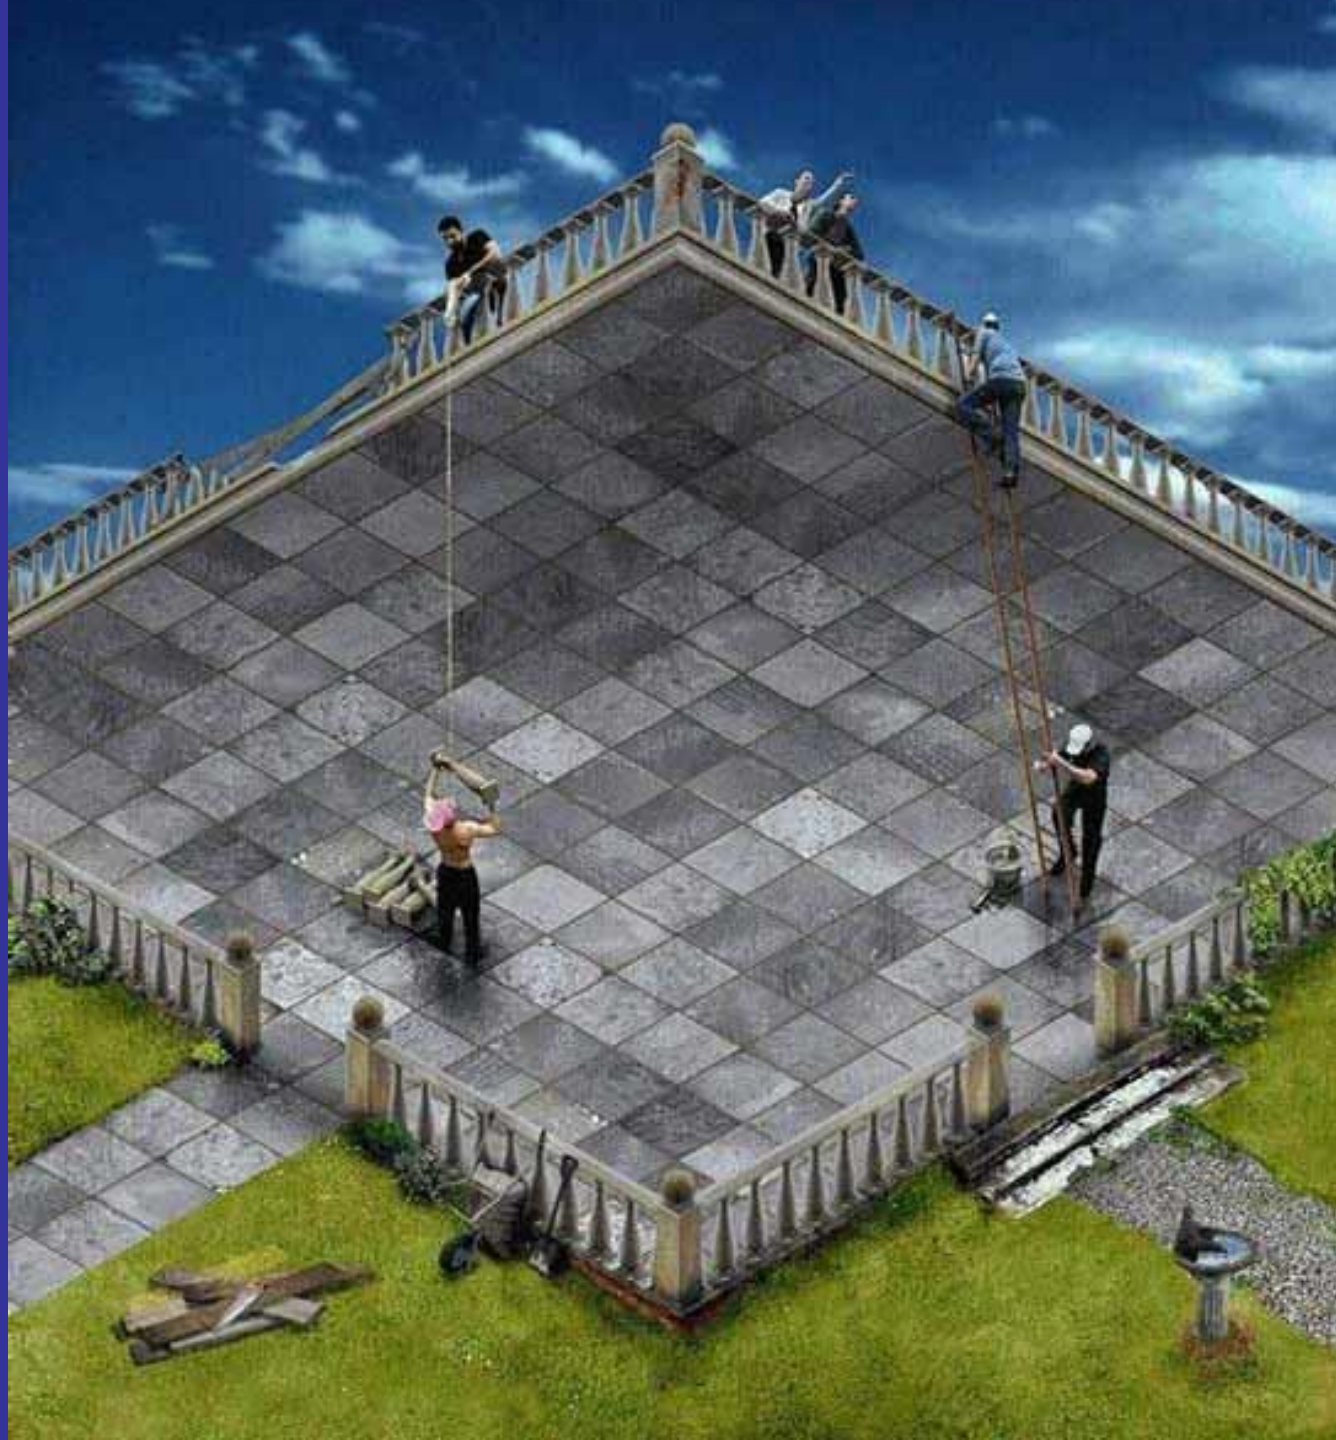

**The thick
black lines
are parallel.**

B or 13?

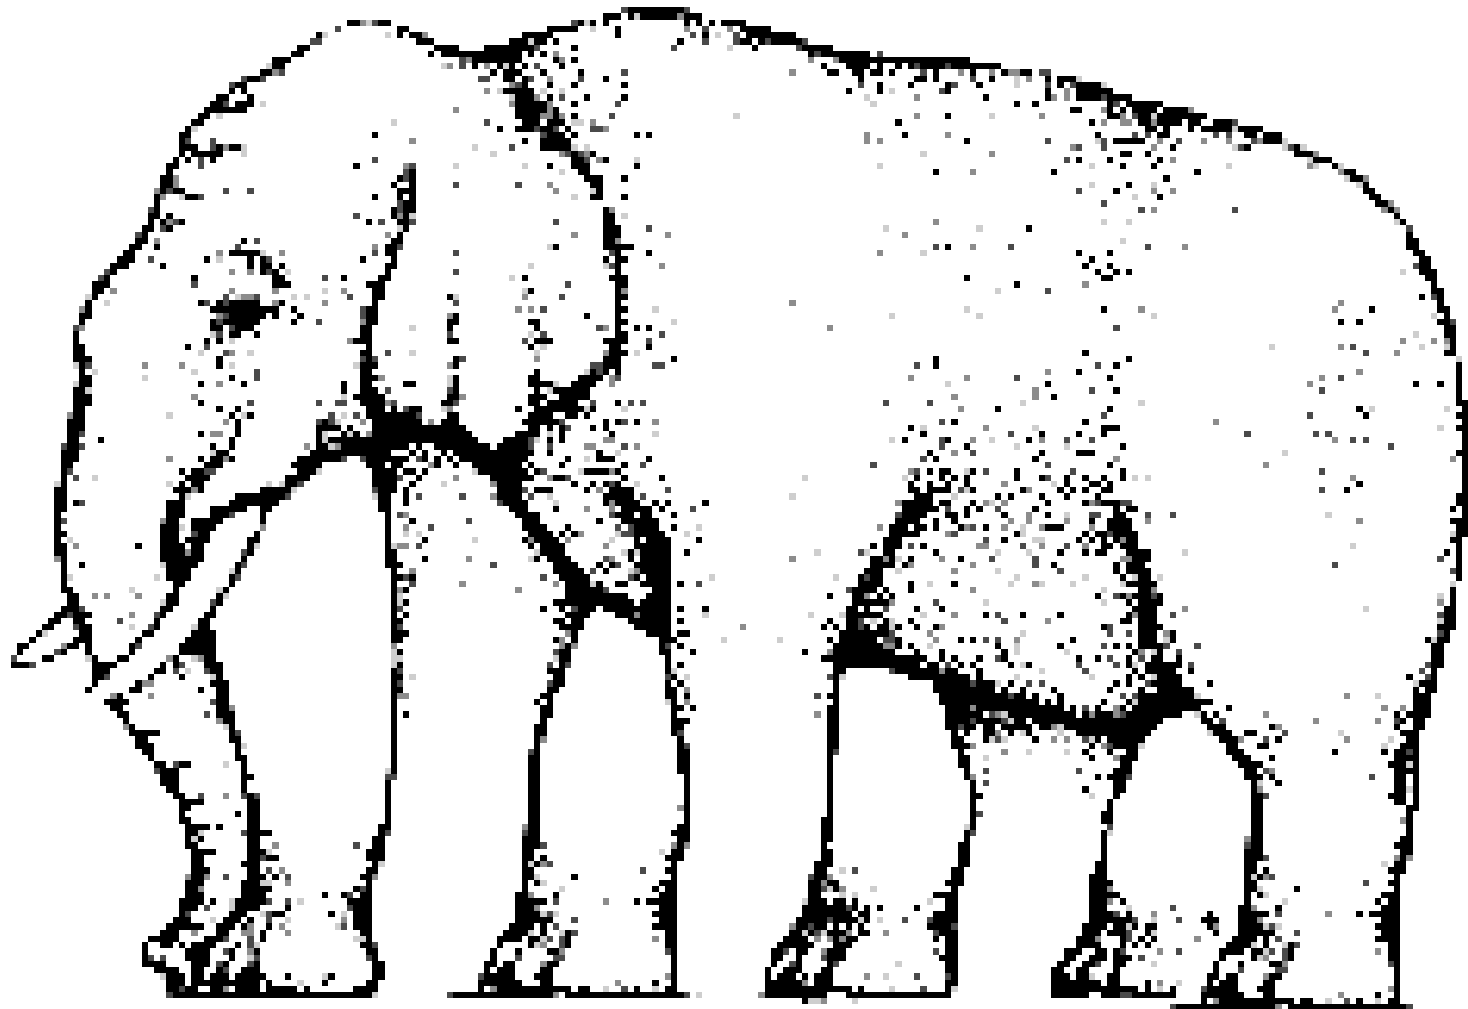

12
A 13 C
14

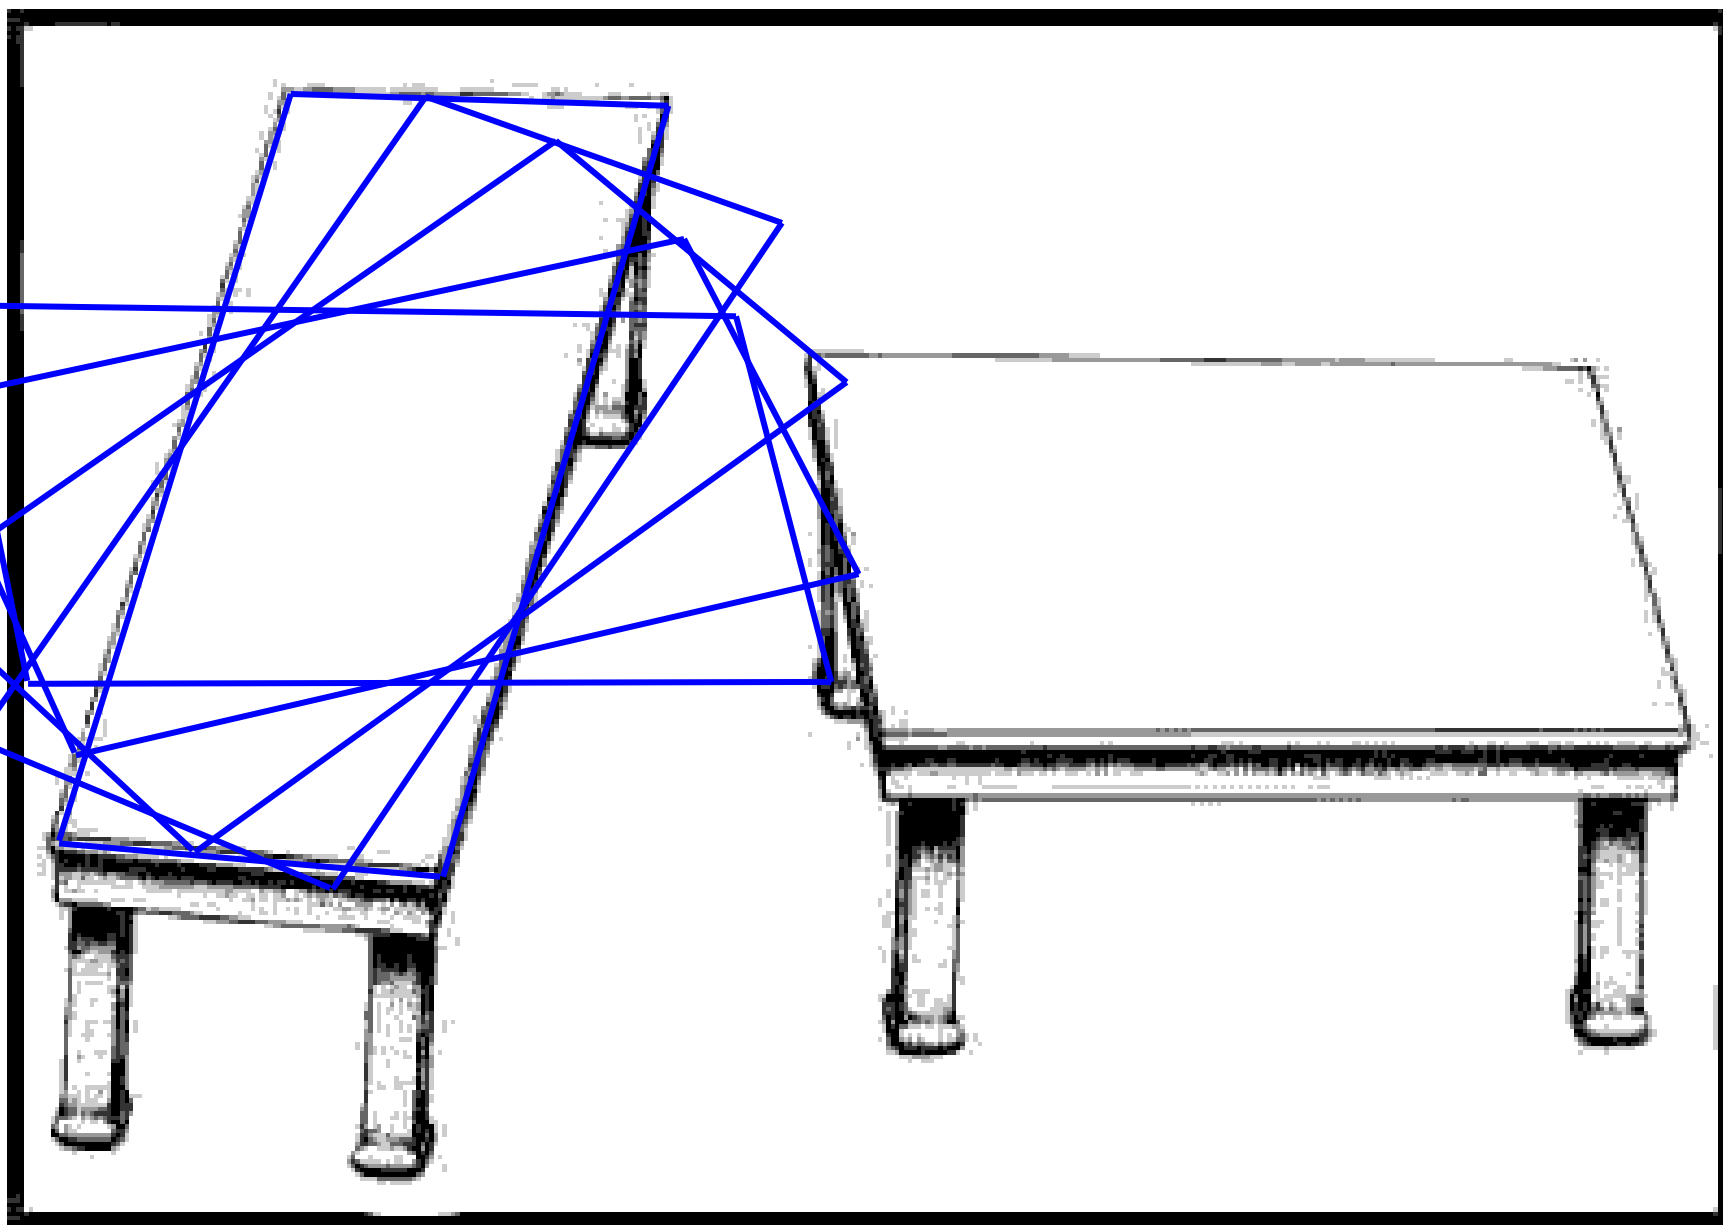

**You guessed it. The red lines
are straight.**

How many legs?

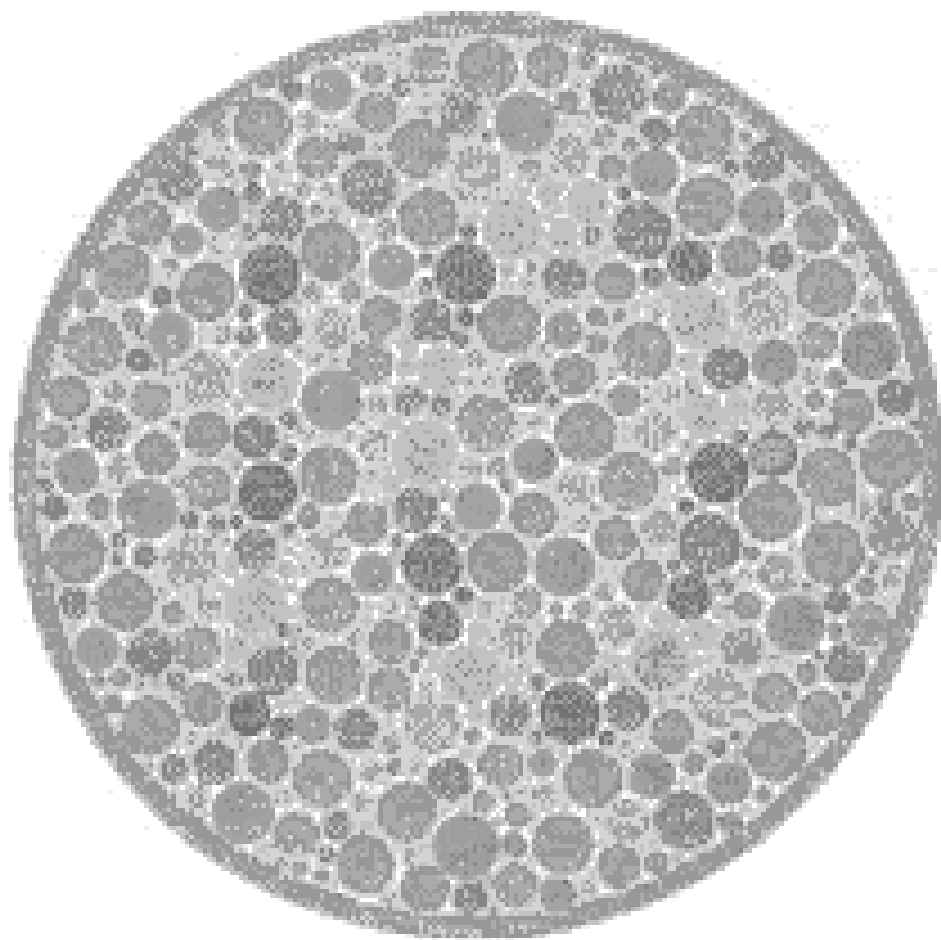

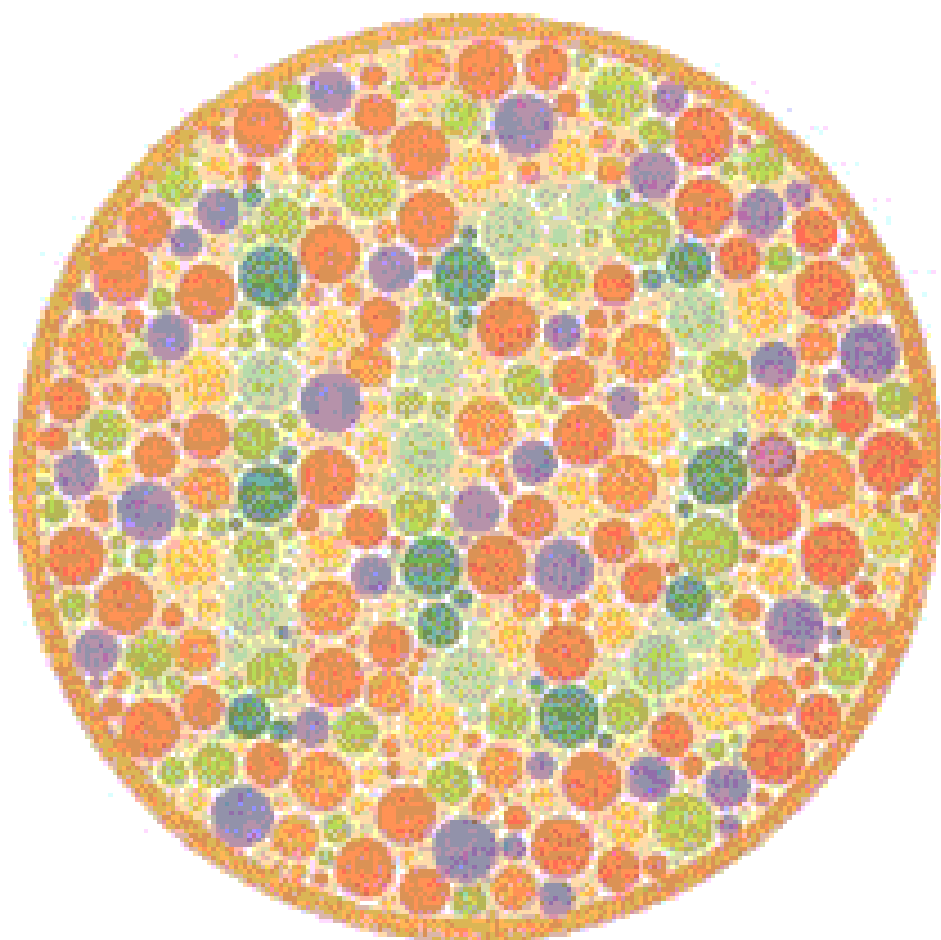

**Young lady or
old lady?**

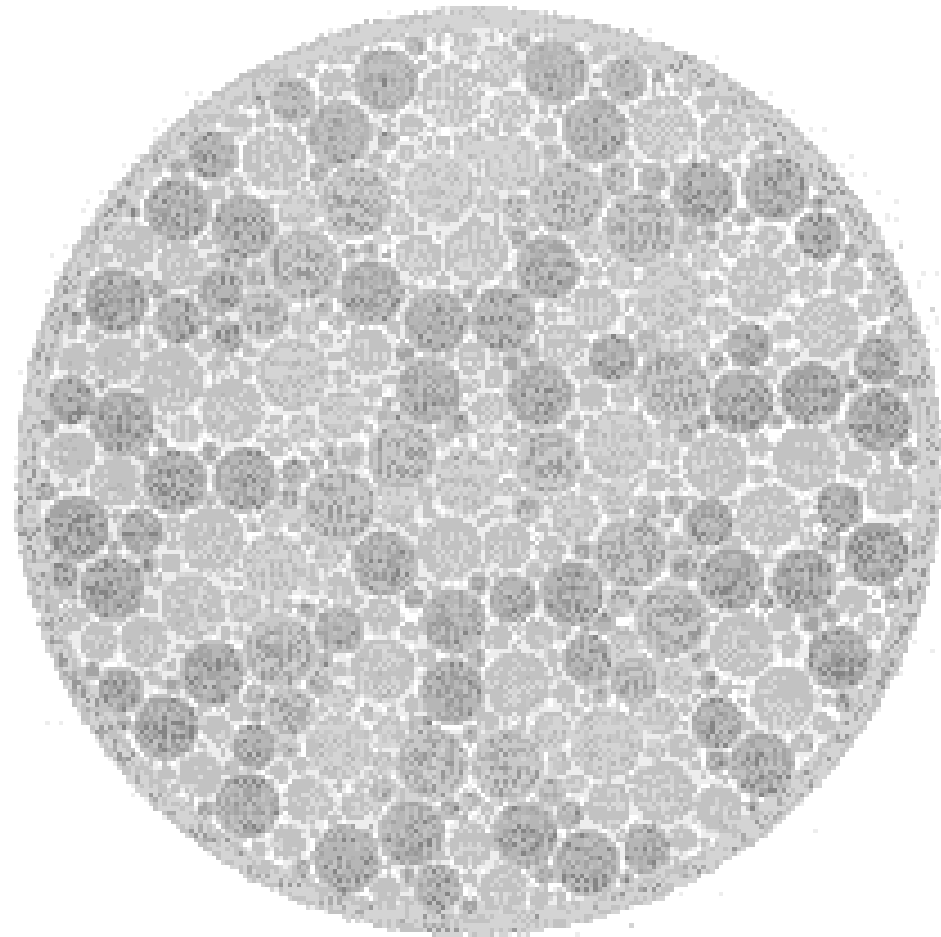

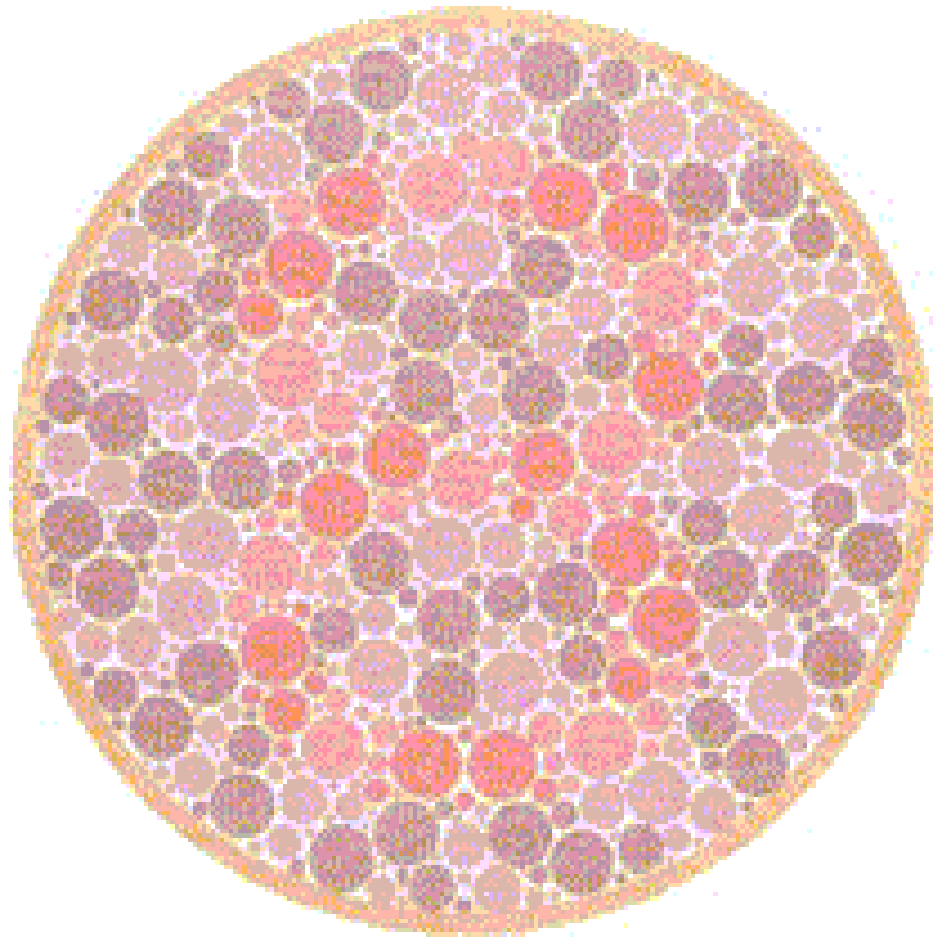

**Really truly
nothing is moving
here!**

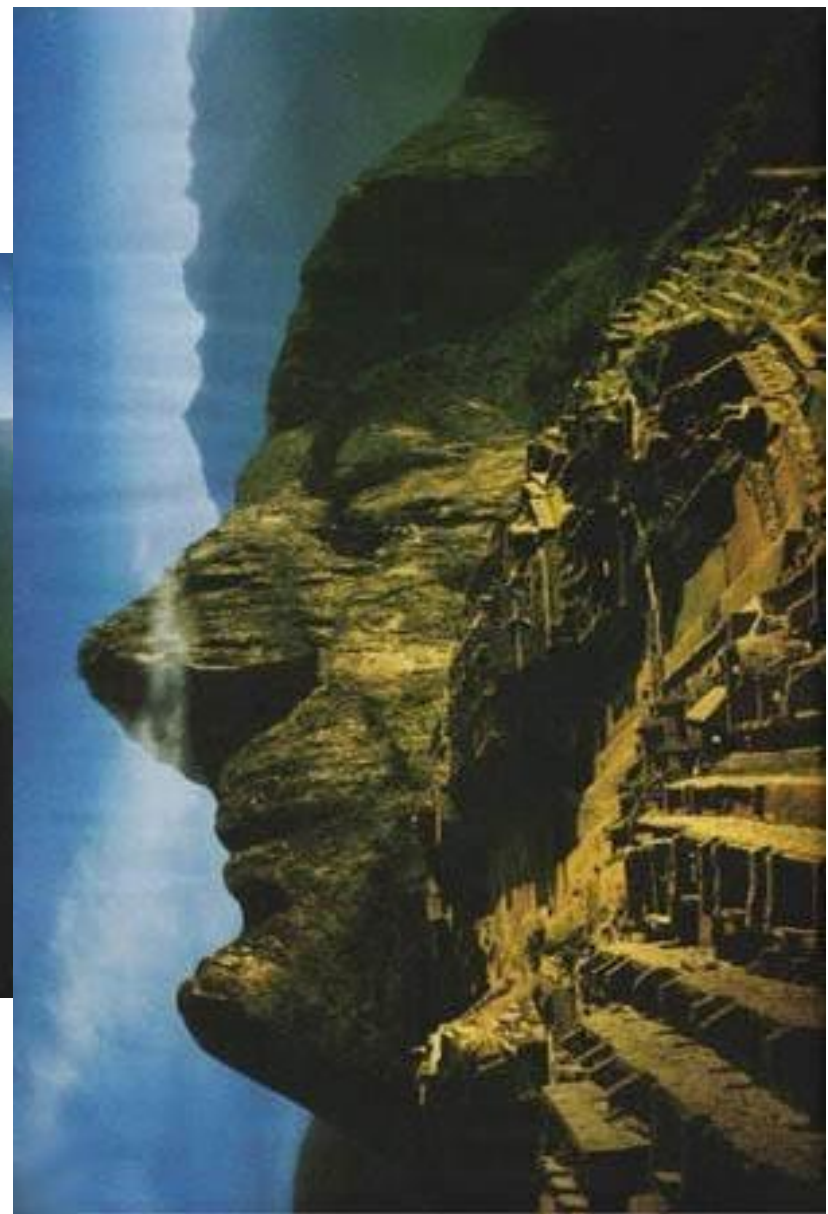

Can you see the 10 in the orange circle?

What number is visible in the coloured circle? If you are colourblind you may see no number – like the grey image.

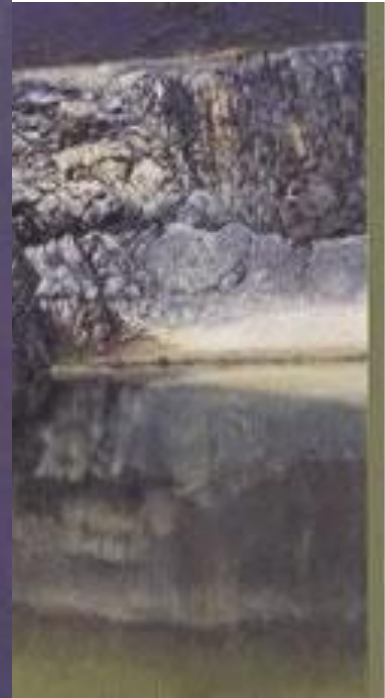

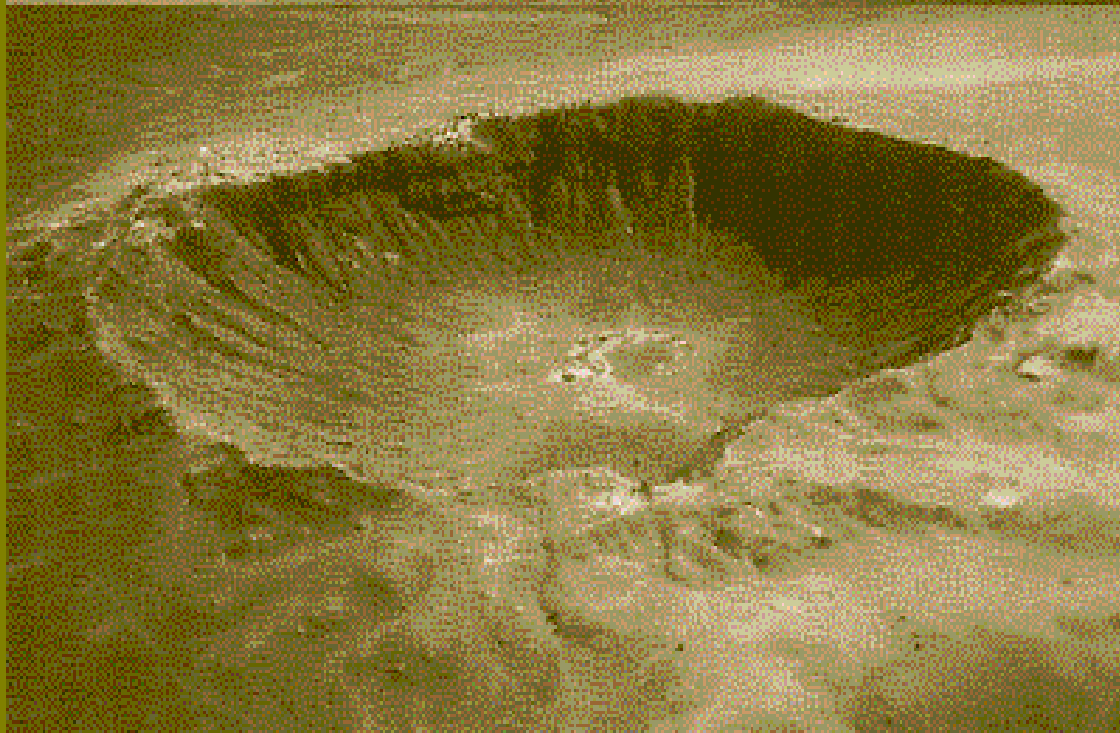

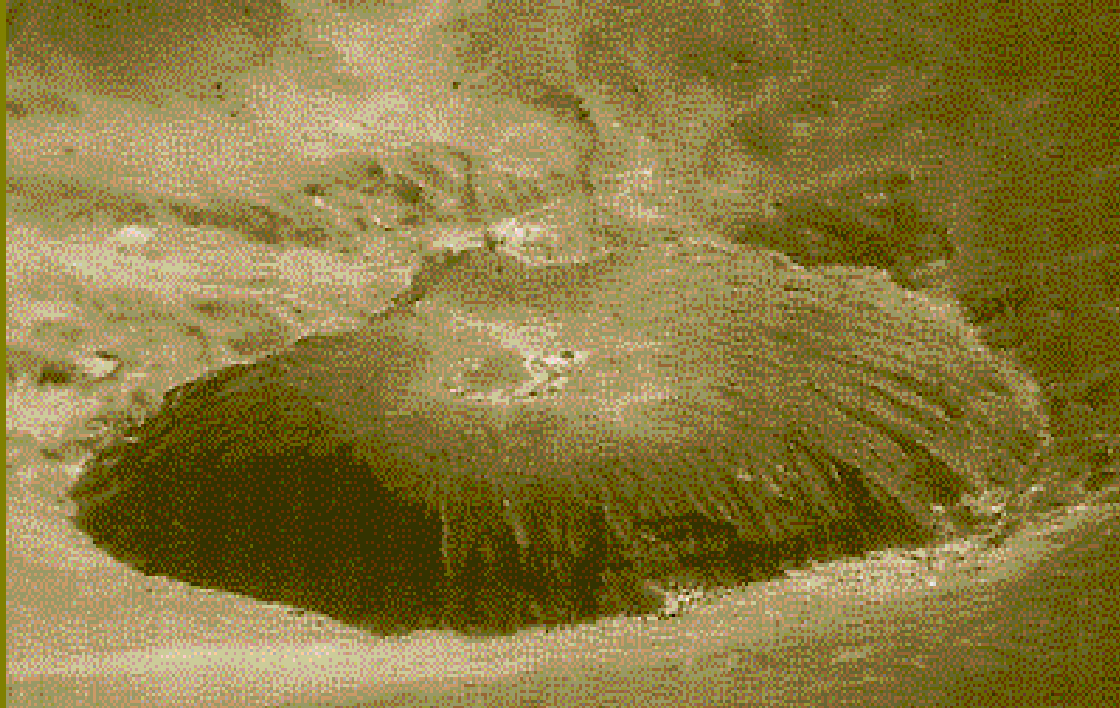

Practical and sporty

Can you find a child?

**A dog in
the snow**

**A dog in
the snow**

**Now can
you see
him?**
